## Russian Division Murders Officers and Surrenders

**DOLNIEVICH FORCES IN BAD WAY—ONE COMMANDER SUICIDES AFTER SMASHING OF HIS COMMAND BY POLES—REDS ON NORTH FRONT COMPLETELY ROUTED—TROTSKY PLANS UPRIS.**

Special Despatch to The Intelligence, Canadian Press, Limited.  
**WARSAW, Sept. 21.**—Defeat of the Russians on the Polish northern front seems virtually complete. Soviet troops are reported being eastward in an effort to avoid being surrounded by the Poles who are in close pursuit. The result of the Polish victory is declared by military experts as eliminating any chance of the Bolshevik launching a fall attack, which Mr. Winston Churchill was credited with planning to drive back from their territory they occupied after the failure of the Soviet drive on Warsaw.

Airies from the front report that one Russian division surrendered to the Poles after having murdered all officers, with it who tried to compel the troops to offer resistance to the Polish advance.

An official communique declares the Bolshevik were whipped unmercifully, much to the discouragement of their commanders. The commander of the Third Bolshevik Army committed suicide. It is asserted, when he realized that his command had been completely smashed.

## B.C. Government Tottling To Fall

**Vote Expected In Favor of Government Control.**

**VICTORIA, Sept. 28.**—A bill to limit liquor, a prohibition referendum in progress, and a provincial election in British Columbia, are being fought with much excitement and some excitement. The people here are almost equally divided in opinion, and are expected to register the relative strength of Liberals, Conservatives, Farmers and Laborers. There is one certainty in the provincial contest and that is, no one can name its success. The Liberal Government, led by Mr. Bennett, has been in power since 1928, but no one can name its success. The Liberal Government, led by Mr. Bennett, has been in power since 1928, but no one can name its success.

For many years British Columbia governments were as unstable as an albatross at British Columbia. They averaged a year every year. There was no active party system in British Columbia. It was a combination of groups and individuals. It was a combination of groups and individuals. It was a combination of groups and individuals.

## Hand Tailored Shapeliness

What makes one suit give you several seasons' wear and hold its shapeliness as long as you care to wear it? . . . while another suit loses its shape on the first damp day?

Because the shape of the first suit is made permanent by intricate hand tailoring, while the shape of the second is merely pressed in by the hot iron.

Fit-Reform Suits and Overcoats are hand tailored.

## Join in Appeal For Protection

VERNON, B.C., Sept. 28.—With the fruit growers of the Okanagan district \$4000 strong and representing over 10000 acres of orchards and orchard lands, and an increased output of over 250,000,000 coming out annually before the tariff commission in favor of free fruit protection for the fruit of the interior of British Columbia the larger interests of this province, including farming, lumbering and fishing, will present a united front in their battle against free trade.

From the standpoint of capital and production, the Okanagan district represents the most progressive fruit raising centre in the whole province, and the stand which they took before the Tariff Commission was just a little stronger than that of the Fraser and Chilwack Valley growers in favor of a continued protection against the invasion of the fruits raised in the hot orchards just across the line in Washington and Oregon.

What the official representatives of the four thousand growers impressed upon Sir Henry Dwyer and his colleagues was the fact that their most basic home protection against the "great disaster of free trade," the law giving being the inevitable consequence of the dumping of American fruits which must accompany any lowering or removal of the present tariff. At the same time, many features were pointed out which demonstrated their claim that the Canadian public have not suffered from the protection which the tariff has given to the fruit growers in the past, far though there have been times when the American growers shipped fruit into Western Canada at rates much lower than the Canadian prices the grades of fruits were of a

much inferior quality. The Okanagan growers did not appear to fear any competition on an even basis, but the trouble which they have experienced in the past, as outlined to the commission, was that the United States gives the lowest grades to Western Canada, but getting the Westerners into that state of mind where they will not pay any more for the No. 1 Okanagan apples than they are obliged to pay for the inferior No. 2 United States grades.

**Free Trade Would Be Ruin**  
The present claim of the Okanagan growers was that free trade would be the ruin of the whole fruit growing industry of this favored valley and with that ruin there would come a financial calamity to the four thousand men who have invested their thirty-five millions in the orchards.

## Belleville Man Elephant Trainer

Story of an Ontario Man, Just Dead, Who Taught an Elephant to

BOITON, Mass., Sept. 28.—The Toronto Star's American correspondent John prints a story today of the death last night of a Canadian circus man, a native of Belleville, Ont. who was the only man in the world to teach an elephant to swim.

This famed animal trainer produced by Ontario died in a hospital at 103 years of age. He was born in 1827 and took up animal training late in life. It was at the time his death was known as America's foremost animal trainer. His great strength, however, was his perfect command of the elephant and his skill in causing millions of persons to double up with laughter when he performed the elephant shimmy. It took him a year to teach "Jumbo" one of the smartest of the New York Hippodrome elephants to go through the wicked movements of the "Jumbo" shimmy. It was this today while his master lies dead.

This famous man trained the largest herd of elephants in the world. He performed his tricks at the Hippodrome from 1870 to 1900. He was a member of the New York Hippodrome from 1870 to 1900. He was a member of the New York Hippodrome from 1870 to 1900. He was a member of the New York Hippodrome from 1870 to 1900.

## Tell Dyspepsics What To Eat

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas, etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due almost entirely to the use of an excess of hydrochloric acid in the stomach. ("Acid" means "acid" in the stomach. "Acid" means "acid" in the stomach. "Acid" means "acid" in the stomach.)

Either they can go on a limited and unobtainable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little "Magen" (Magen is a little "Magen").

There is probably no better, safer or more reliable stomach antacid than "Magen" (Magen is a little "Magen").

## CENTENARY

The farmers in this vicinity are busy filling their bins, the best having done last little while ago. Centenary Bazaar, which was held at the White's Church, Belleville, on Tuesday evening, Sept. 28, was a success in a debate. "Resolved, that the cost of living, after taking into the highest cost of living, was what made the cost of living high." Miss Stella Williams and Mr. Norman Williams were "at home" on Monday night in order to give thirty of the young people of Centenary. A most enjoyable evening was spent in games, singing, etc., a light luncheon being served at midnight.

Mr. and Mrs. Jackson Kieley and Miss Thompson spent Sunday with Mr. and Mrs. A. E. Phillips, at Belleville.

CONDONARY NOT CLOSED

Reports published in Toronto and other Ontario newspapers recently state that the condensaries at Winton and Bloomfield had been shut down as far as the Picton factory is concerned. Mr. R. E. Trimble, manager of this condensary, states that his plant has no intention of closing. Part of the milk is now being manufactured into cheese, but the manufacture of condensed products is being continued. It is understood that the Bloomfield condensary has ceased operations and that the milk is being manufactured into cheese at the factory of the Bloomfield Cheese Co.

## Auto-Strop Razor —sharpens itself

ALL safety razors seem alike because of the similarity in size and appearance. As regards the AutoStrop Razor, however, the resemblance ends there. Its peculiar and additional advantage is, that without being larger than any other safety razor, it combines within itself a self-stopping feature that enables the user to keep the blade sharp without taking anything apart. It thus prevents dull blades and the expense of buying new ones.

You may not be interested in economy of blades, but surely you want a good shave and that is only possible with a stopped blade. AutoStrop Safety Razor Co., Limited, AutoStrop Building, Toronto, Canada

Any dealer will demonstrate the AutoStrop Razor to you, guarantee satisfaction or refund of purchase price. Only \$5.00—includes with stop and twelve blades in an attractive assortment of cases.

# Water From Storage Lakes Can Relieve Power Shortage

MANUFACTURERS IN RAY OF QUINTE DISTRICT FACED WITH SERIOUS LOSS OF POWER, SCALED TO NOT SPEEDILY REMEDIED—1500 EMPLOYEES AFFECTED IN BELLEVILLE ALONE—GOVERNMENT ASKED TO DIVERT WATER FROM STORAGE LAKES ON TRENT VALLEY CANAL SYSTEM

Power shortage in the Central Hydro district caused by the low water in the Trent River daily grows worse, as the manufacturers concerned are very much alarmed over the serious situation which has developed. The district supplied with electricity by the Hydro Electric Commission from its power developed on the Trent River includes all the territory from Ottawa to Kingston and between Belleville and Peterborough.

Some weeks ago when the power shortage, owing to low water in the Trent, first became noticeable the Hydro officials coped with the situation by cutting off the power from industries for short periods, ultimately, a group at a time, and the inconvenience was considerable. Gradually the situation became worse, however, until it was necessary to limit the power for days at a time.

Most of the industries in the Bay of Quinte district have been working at high pressure getting out orders, some working day and night, and the enforced closing down has caused heavy financial loss, besides throwing many out of employment.

## RELIEF PROMISED.

The manufacturers of Quinte district, upon investigating the situation, found that more power could be secured by diverting water from the storage system of the Trent Valley Canal system to the upper lakes and the Hydro Electric Commission has agreed to divert water from the West Hastings, approached the government at Ottawa for relief. Mr. Foster laid the matter before Premier, Meighen, members of the Cabinet and the Department of Railways and Canals, with the result that an arrangement was reached whereby the Department of Railways and Canals will permit the storage waters of the canal system to be let down and reduced for power purposes to the extent of one-tenth of the water foot per second from one million to five hundred thousand cubic feet per second of lake power owing to the low condition of the water in the Trent, and said to Trent Canal is relieved by fair rains or otherwise. In fact to protect the government from any possible action for damages to property or persons, the Hydro Electric Commission has agreed that the Quinte district have signed an agreement relieving the government and Department of Railways and Canals from all claims for injury or damage that may arise in consequence of lowering the water in the storage lakes.

All of the manufacturers in the following places have signed the agreement: Belleville, Trenton, Napanee, Deseronto, Cobourg, Nadeo, Deloro, Port Hope, Corby, Hawke's Bay, and others.

## 1500 OUT OF WORK IN BELLEVILLE.

Several of the largest industries in Belleville were closed down almost wholly at last week and fifteen hundred employees thrown out of work. Orders are being cancelled and the prospect is most discouraging unless the government takes quick action to relieve the situation. The fact that the Hydro Electric Commission, supplying the power, is a government institution, and the control of the storage waters is vested in the Department of Railways and Canals, upon the Dominion Parliament, complicates the situation.

## LOSS TO FISHERMEN.

One of the industries in Quinte district shut down through power shortage is a box factory engaged on large orders for fish boxes for the fall catch from Quinte waters. These boxes are necessary for the shipment of \$750,000 worth of fish, and if the boxes are not forthcoming the fishermen will be in a sorry plight and an enormous loss will result.

The Judge-Jones four milling industry at Belleville, have been waiting for night and night and night, dependent upon the water level during the season of navigation, and if the power shortage continues their loss will be heavy. Other milling industries in the Trent district are similarly affected.

Industries in this district have many orders of quick delivery which will be lost if the power shortage is not relieved at once.

## SCHIFF'S FORTUNE

Over \$100,000,000. New York, Oct. 4.—Jacob H. Schiff, private fortune will rise to \$100,000,000, according to an estimate made by one of the leading financiers in the United States, Kuhn, Loeb & Company. That estimate was generally understood by well-informed Wall street men that the value of the dead man's estate was something like \$100,000,000 and considerably less than \$75,000,000.

When R. H. Harriman died the first statement placed the value of his estate at \$100,000,000. The first official statement placed it at \$75,000,000. Finally it was understood by insiders that the late Harriman was including gifts made and bequests made, amounted to \$125,000,000. It was now generally agreed that the late Harriman was a great deal more than Mr. Harriman, and Mr. Harriman also took special care to make that were and had Mr. Schiff.

# Drastic Cutting Of Prices On Chicago Wheat Market

NEARLY TWELVE CENTS A BUSHEL SLASHED FROM VALUES IN SOME CASES—DECEMBER DELIVERY DROPS TO \$1.55—FOUR PRICES REDUCED FROM TEN TO SIXTY CENTS PER BUSHEL

Special Despatch to The Intelligence, Canadian Press, Limited. CHICAGO, Oct. 4.—Drastic cutting of prices took place on the wheat market here. In some cases nearly twenty cents a bushel was slashed from values. December delivery at one time bringing only \$1.56 as against \$2.25 at Saturday's close. Increased liquidation by holders was in progress, especially from rural sources.

## FLOUR PRICES DOWN.

MINNEAPOLIS, Oct. 4.—Four prices continued their downward trend when the mills effected a reduction of ten to sixty cents a barrel for family flours, today. The low wheat market is responsible for the decline, millers said.

# New York Explosion Suspect Arrested

Special Despatch to The Intelligence, Canadian Press, Limited. NEW YORK, Oct. 4.—Reverend John J. Connelley, a priest, was arrested on the night of the explosion of the New York City Police Station, yesterday. He was arrested by the New York City Police, and is being held in custody.

While so far it only the smaller of the two explosions is being investigated, the police believe that the explosion at the New York City Police Station was the work of a person or persons who were in the city at the time of the explosion. The police are now looking for a person or persons who were in the city at the time of the explosion.

# Demoralized Red Forces Deserting In Large Numbers

RUSSIAN REDS IN FULL RETREAT ON ALL FRONTS—EF-FORTS OF TROTSKY TO RECRUIT NEW FORCES FALL—PEASANTS AND WORKMEN REBEL AGAINST MILITARY SERVICE—GREAT ANXIETY REPORTED IN SOVIET CIRCLES.

Special Despatch to The Intelligence, Canadian Press, Limited. LONDON, Oct. 4.—Press despatches reaching Stockholm from Finland, according to the London correspondence, confirm the report that a state of great anxiety prevails in Soviet circles. Reports conveyed across the Russian frontier say that the Red forces are in full retreat on both Polish fronts, and in the Crimea, demoralized, suffering from hunger and succumbing to desertions in large numbers.

Trotsky's efforts to recruit new forces in Siberia and the eastern provinces have failed, reports say. Peasants in agricultural districts and workmen in towns equally revolt against further reinforcements. The Soviet Government has instituted forced conscription of clothing for troops. The order says: "Let everyone who has two coats, two pairs of boots, two fur caps, give one and save soldiers from perishing from cold."

## South Africa to Celebrate

Arrival of Chapman, Which

Carried the First Settlers

SOUTH AFRICA has its

Mariner, the little ship Chapman,

the first of a fleet of

sailing ships which a hundred

years ago brought to its shores a

body of British settlers who left an

enduring mark on the country. It is

in recognition that in the very year in

which America will be celebrating the

centenary of the arrival of the

Pilgrim Fathers on the Mayflower,

South Africa is celebrating the

centenary of the arrival of British set-

tlers, or, as they are commonly called,

the first settlers. It is thus that

the Cape has been under British rule

since the capture of a victory, which

was occupied almost entirely by

British troops, and which today still

stands as a monument to the

British Government's decision to

promote the settlement of the eastern

provinces. On this project they

were prepared to expend some

\$50,000. The scheme was eagerly

taken up by a number of the

settlers, and some 4,000 men, women

and children, were selected to

leave home and sail on an expedition

to the Cape. The expedition was

governed by the true pioneer

spirit, and though they were

unhappily met by a

totalitarian and

and every imaginable

difficulty, they soon began

to make progress, and today their

descendants are scattered throughout

South Africa, and some of the

most prominent names in the

community.

The first settlers arrived in

1602, at Port Elizabeth, then a

proposed station and manufacturing

center. The first settlers

**WOMAN MURDERER ESCAPES THE SCAFFOLD**

Madame Gagnon, mother of two babies, sentenced to be hanged for the murder in Quebec, has escaped the scaffold through executive clemency. Life imprisonment will be the punishment of this unfortunate woman and the twins, if they live, will have visited upon them, in a measure at least, the sins of their parents, the father also undergoing a life sentence. The sentence of the woman was a wise and humane thing to do as her death upon the scaffold would only be adding another tragedy to a chapter of tragedies.

## COME BACK, SAYS MR. HARDY, AND FORGET THE HORRID PAST

A. C. Hardy, of Brockville, President of the Ontario Liberal executive, in addressing a meeting of the Toronto and York County Liberal Association, said that the farmers had undermined the Liberal organization throughout the province. Mr. Hardy said he could not understand why men and women who got a little money together left the Liberal party and went over to the Conservatives.

Where else would they go when they get their eyes open? Liberals could not win elections on the old Irish line, said Mr. Hardy, who issued an invitation to the Liberal Unionists to come back to the party and forget the past.

"To men ourselves as others see us" is a gift which Mr. Hardy seems to be cultivating.

## IMMIGRATION MAY CUT LIVING COST

Possible and probable effects upon conditions in America of the present emigration from Europe are discussed in "Forbes Magazine" by Paul Clay. "The worker desires to know what is contained in the threat against the size of his pay envelope; the employer wonders if it means a fair supply of efficient labor; the farmer asks whether it signifies that he will be able to obtain help enough to prevent his crops from rotting in the field; and the great middle class asks our people are wondering if it will bring relief from the excessive cost of living."

Dealing with these points, Mr. Clay says:

"The greatest single factor in bringing about the high cost of living has been the labor shortage of the war period. Admittedly the direct cause of the big rise in food prices was the great demand and the small supply; but the farmers were anxious enough to take full advantage of the high prices, and but for the labor shortage the production of food products would have come much nearer keeping pace with the demand. Many a farmer absolutely discarded certain lines of production, especially in the Eastern States, because of inability to secure his necessary help."

The great wave of immigration now definitely promises to restore a normal supply of common labor within a reasonable time. This should replenish our supplies of raw materials and bring their prices down to a fair basis at which industries can go ahead. It should bring down the materials down where the housing shortage can be eliminated; it should bring farm products down where the cost of living can be moderated. And it should bring food and iron down to such a basis that our constructive industries can thrive. Big movements of this kind do not occur every day. They take weeks and months; and we are not going to see any immediate results in this case. Yet under the peculiar conditions now existing immigration and property mean pretty much the same thing, and we should begin to realize the property time time year—possibly early in the year.

## ONLY TWENTY YEARS AGO— BUT TIMES HAVE CHANGED.

(Brush and Pail)

Nobody sweated the fly.  
Nobody had a wrist watch.  
Nobody had appendicitis.  
Nobody wore white shoes.  
Nobody sprayed orchards.  
Most any young man had "livery bills."  
Farmers came to town for their mail.  
The heaviest wear on the road was the horse.  
Now the seas alive with under-water boats.  
The hired girl drew \$1.00 a week and was happy.  
The butcher "threw in" a chunk of liver.  
The agent "threw in" a pair of silver slippers with every suit.  
Nobody "listened in" on the telephone.  
Straw stacks were burned instead of baled.  
There were no holdovers or international anarchists.  
The safety razor had not introduced the clean-shaven face.

## CRISP COMMENT

With the extensive program of street paving this year in Belleville it is regretted that Italian street cars are not included. (This is one of the principal arteries of traffic in the city and should have been the first to receive consideration.)

As the River Mohr shows no disposition to be decent and respectable, go on a rampage every spring and tear up things generally, then die in the summer and become a disease breeder, it is high time something was done to control its vagaries.

If Arthur Melgren could be convinced that the Toronto Globe says about him is true, he would probably go away to some solitary place by himself and die. But we do not believe it, says the Hamilton Herald.

With a great show of indignation Premier Premier Drury calls Dominion Premier Melgren to account for statements never made. Of course Premier Drury is simply playing politics, and while pretending to answer Premier Melgren, was simply taking to dishonest statements made by news in playing the U. F. G. hard just now, but he has no means put his little Gable away for keeps.

"The Toronto Mail and Empire makes the 'obviousness' that it is worthy goes out of the beginning of the furnace day now so many of cold would be saved. It suggests substitutes, oil, gas and electricity. People, however, are not likely to begin substituting oil, gas and electricity

price. But there are other things they can do than use substitutes. They can do it in the kitchen, or even one day's kitchen. They can do it with warmers and hot water bottles, they can practice deep breathing, which warms the body, they can take to their beds, they can— but we need not become frivolous; the point is, the Mail must not become excited, people will save coal because it is too tedious to waste, remarks the Kingston Standard.

Alfred Ross, chairman of the Finance Committee of the City Council, told the members of the Council Monday evening that the civic finance was in a serious condition at present, and the heavy expenditures this year, and next year's Council would have a hard row to hoe to meet obligations incurred this year. Ald. Ross advocates drastic action to save expenditures at once. This justifies warnings issued early in the year by the city banker and The Intelligencer, the only law in Ald. Ross's warning being that it comes about a month late.

## OTHER VIEWS

### Cure For Wife Beating

Toronto Globe

A cure wife-beating has been discovered by Edward City, Pennsylvania. It is a simple one and consists in choosing women as jurors to deal with wife-beating cases. Presumably the Judge's wife would be on the bench in all cases where husband and wife are beaten by their wives. Just to even up.

### Waste Paper

Life

Few of us realize the importance of saving waste paper. Today when the country is threatened with a wood and paper famine and our forests are disappearing so rapidly every scrap of paper should be saved. It is estimated that the saving of paper would make it possible to save more than 1,000,000,000 feet of lumber each year. Waste paper, such as old magazines, books, all kinds of printed matter, and even old newspapers, should be saved. Such material is used for paper, making paper bags, roofing and building boards and paper shoe containers of all kinds, which carry as much as 100 pounds. If every one would save the waste paper in his home it would not be necessary to use a single tree for such material. It would require more than 100,000,000 feet of lumber each year to make the paper which carries such and throughout the country.

### The Liberal Champion

Edmonton Journal

The other day in taking note of a very notable attempt, which is being made to carry the idea that Premier Macdonald and the Hon. Robert Borden are close political associates The Journal would have been well advised to refer to the venerable to attack the Hon. W. L. M. King on the ground of his close political association with "Hillier-Maclean" Preston. When this idea was first advanced and spread of for the news which comes less than a week later, giving the result of a total election conversion in the constituency of Durham, Ontario. This conversion shows as its candidate at the next ensuing Dominion election is none a personage than the famous flag the Maclean.

# What Percentage of Your Income is Taxable?

Many wise investors, taking advantage of the present low prices of good long-term securities, are buying bonds.

And it is good judgment to buy bonds now. But good judgment advises also discrimination in bond purchases.

Securities which pay good interest rates may yield comparatively small returns when the income tax has been deducted.

Some Victory Bonds are tax free, and— VICTORY BONDS are among the best long-term securities available. We recommend those FREE FROM INCOME TAX falling due in 1933 and 1937.

# Your Railways And The Cost of Living

**B**EFORE the Privy Council at Ottawa protest against the new railway rates has been made on the grounds that the giving of the new rates would raise the cost of living by a percentage many times higher than the percentage actually charged by the Canadian railways.

It was pointed out that the numerous middlemen who act as the distributors of goods would each add his percentage of profit to the freight rate, so that although the railways might only receive say 40 cents additional freight charge on a shipment the public would be forced, by the distributing middlemen, to pay many times that amount.

The managements of the various Canadian railways desire, through this, their association, to draw the attention of newspaper readers to the highly significant fact that the recent increase in United States railway rates—an increase similar to the increase in Canada—has actually been followed by a decrease in the cost of living in that country.

## Furthermore

A great Canadian manufacturer recently made public—without any solicitation and without the previous knowledge of the railway managements—figures which proved that the retail selling price of a yard of plain white cloth in Winnipeg after being hauled from Montreal to Toronto and Toronto to Winnipeg, would be increased only one-half a cent even after the wholesaler had added 20 p.c. profit to the new freight rate and the retailers another 50 p.c.

He showed that these distributors, whether rightly or wrongly, added 15 cents to his

mill price of 16 cents per yard.

Yet the railways carried the raw cotton for this yard of goods from Texas to Montreal, and the finished goods from the mill to Toronto and Toronto to Winnipeg for one-and-one-half cents.

One-and-one-half cents as against fifteen cents.

We venture to believe that, whatever the explanation or the justification may be, the same serious additions to cost by the distributing trades will be found in relation to almost every article of common household use.

This is not to attack distributors. They may themselves be victims of a bad system or of an overcrowded trade. But it is to point out that if they add whatever percentages they, as a trade, find convenient, on top of the freight rates, the railways cannot help either themselves or the public. The oppressive results of these practices should not be charged against the railway managements, nor cited as reasons for holding freight rates down—merely because railway rates can be held down—while other prices soar as the various trades find necessary.

**R**AILWAY charges always must be a serious item in determining cost of production. But the managements of your railways urge upon your attention this fact: that antiquated, over-loaded and wasteful systems of distributing goods are much more properly a subject for public anxiety.

Canada cannot prosper without prosperous railways. Canadian railways cannot prosper unless Canada prospers.

In all sincerity let us suggest that the people of Canada beware of those who would restrict and even strangle the railways simply because control exists there and is not so convenient in other departments of commercial activity.

# Heavy Fines For False Statements

Three Others Pleaded Guilty to Pay \$5,000 for Income Tax Evasion

OTTAWA, Oct. 6.—(Press) Aggregating \$5,000 were imposed in proceedings by Deputy Magistrate Kead, upon three prominent local physicians, who were either found guilty or entered a plea to this effect, of having made false returns to the Department in connection with their incomes.

The doctors who were found guilty were Dr. J. O'Brien, who pleaded guilty to making false returns for the years 1915 and 1916, and was fined \$2,000, or \$1,000 on each charge; Dr. Gordon E. B. Smith, who pleaded guilty to the same charges and was fined \$500 on the first count and \$1,000 each on the other two; Dr. Rudolph Chevrier, who pleaded not guilty to having made false returns for the year 1915, but was found guilty and was fined \$500. A. E. Phipps, K.C., who appeared for Dr. Chevrier's interests, indicated that he would appeal the conviction on a higher count, in order to have a test case as to the meaning of the word "false" under the act. He contended that while his client had admittedly made incorrect returns to the Government, he was not guilty of making false returns, and with an intimation of the Government of the present month considerable under the act.

# Minister Of Labor Protests Liberal C.E. Leader's Charges

Declares Reference To G. T. Employer Dispute Contrary To Facts

OTTAWA, Oct. 6.—Senator Charles Robertson, Minister of Labor, makes strong objection to the statement made by the Hon. Mackenzie King, leader of the Opposition, that the representative of the Railroad Brotherhoods had petitioned the Prime Minister and himself to see that the present rights of certain of the employees of the Great Canadian Railway were duly secured in any agreement which might be reached, saying that "they must as well have known that the trouble of making an agreement for the Government was not theirs to bear."

"I don't know whether the Hon. member has been quoted correctly," remarks the Minister, "but after his interview in Calgary," "If it has his statement is quite contrary to the facts."

A statement of Grand Trainmen's convention occurred in 1918, their claims being for rates of pay and working conditions similar to those of the C.P.R. Mr. King, they say, Minister of Labor, properly informed them of the Government's position in relation to adjustment of the dispute and obtained an agreement from them. The present effort to amend the Railway Labor Act, the effect of which is all the striking employees, is a purely political move, and the Government will not be responsible as possible."

"I am not," said Mr. Robertson, "refrained from repeating some of the statements made by the Minister, but I do not mean any definite time, but Mr. King agreed that it was an unjustified statement that would be made without a proper hearing."

He said that the Government was not a party to the dispute, and that the Government was not a party to the dispute, and that the Government was not a party to the dispute.

# Saving Water For Future Possible Power Requirements

GOVERNMENT ENGINEERS SAY RELEASE OF STORAGE WATER NOW WILL CAUSE POWER FAMINE LATER

MANUFACTURERS SAY PRESENT NECESSITIES MORE IMPORTANT THAN FUTURE POSSIBILITIES—OPPOSITION TO PLAN FOR INCREASED POWER.

OTTAWA, Oct. 6.—Strong representations are being made to the Government with reference to the supply of power in such places as Ottawa, Belleville and Kingston, where the Ontario Hydro-Electric Commission has contracted to supply more power than it is presently capable of doing, unless water is released from storage in the Trent watershed, or unless central Ontario generally is blessed with an early and abundant snowfall.

The Department of Railways and Canals is in charge of the water conservation of the Trent area, and while requests are being received from industrial manufacturers to permit the drawing off of water from the available stretches of the Trent to relieve the present shortage, there is no talk in the report emanating from Belleville that such a course had been agreed on by the department.

BY COURTESY OF C.P.R.

The University of British Columbia, established near Vancouver in 1915, and now one of the recognized institutions of learning in the Dominion, is an added attraction to the scenic beauty and great agricultural and industrial possibilities of the province. The University was founded under the act of 1904, establishing and incorporating the University of British Columbia. By the "University Endowment Act" of 1911, 2,000,000 acres of land was set apart as endowment. Leonard S. Killick, B.Sc., is president, and there is a Faculty of Arts and Science, which includes a degree in nursing and a Faculty of Agriculture. The University is an integral part of the public and high schools.

It is the policy of the University to render service to its constituency by giving instruction in those lines of education which are most directly related to the life and welfare of the province and by encouraging research work in the various fields of knowledge. The University has been laid in three departments of University activity: extension work will be organized.

The University library possesses 25,000 volumes and about 25,000 pamphlets, and well equipped reading rooms for over 100 students. There is a laboratory of over 20,000 acres, illustrating the Provincial flora, including forest, meadow, fern, and flowering plants. The botanical garden is situated at Penticton, near Kelowna, B.C.

From the grounds a view of the city of Vancouver is visible. The University of British Columbia is the only university in the Pacific which has a faculty of agriculture. The University is situated on a beautiful site, 150 acres in extent, and is surrounded by a wall of Douglas fir. A special meeting of the City Council of this city was held Tuesday afternoon, May 10, 1904, for the purpose of considering and confirming the agreement reached by the city and the Chesapeake and Potomac Telephone Company, relative to the purchase of the bridge and franchises adjacent to the city. A resolution was adopted to accept the proposition. A. D. Garrett was employed as reporter.

It was introduced that the matter of purchasing it to the citizens could be discussed. The bridge question, he said, was a very important one, and was suffering. The proposition to the bridge firm, Mr. Dicks said was a very important one. A new bridge would cost between \$750,000 and \$1,000,000. The bridge would be a very important one. ## 50th Anniversary OF Wedding Day

On Sept. 20, 1870, at the home of the bride's parents in Camille, South E. youngest daughter of John and Mary "Vrooman" Cahill, and Richard D. Watson, son of Mr. and Mrs. Elizabeth Watson, were united in holy matrimony by the Rev. Dr. W. D. Willis. The wedding was a simple affair, the ceremony being held in the parlors of Belleville and vicinity, coming from England in 1870, and soon after married Elizabeth Drishbell. He was interested in the shipping business with the firm, H. H. Pitt, when Belleville was known as Meyers' Village. In 1875 he bought the House farm just east of the city (East half of Lot 11, 2nd concession of Thurlow). He also did his share at the time of the rebellion in 1873 when he drove the ammunition wagon from Belleville to Kingston and Toronto.

Richard was born in 1845 and brought his bride to the home fifty years ago and here with the exception of a few years they have spent their happy married life. They were blessed with five children, two now dying in infancy. The three girls, Nettie, wife of Rev. E. W. Thirk, R.L., R.D. of Stewartsburg, Ontario, wife of William J. O. Ellis, Foxboro, and Alberta, at home, were with present with their families to spend the day in the old home. Many friends and neighbors called to congratulate the couple and the celebration of the marriage and after a couple of hours spent in merry chat, speeches and music, enjoyed a late and although Mr. Watson has been an invalid all most two years, it was a great pleasure to himself and bride to receive the friends they had lived among for so many years.

In their church life, only a few of the first friends remain, and some joined in the congratulations, but many have passed to the great beyond.

The groom first attended Sunday School in the old Farnham Street Church, then as a young man in Bridge street, where he left to take charge of the choir in the old Blocker Avenue church, which was his place for nearly thirty years. Their last few years have been spent in the West Belleville, where they were kindly remembered, and the day closed with a prayer of thanksgiving to God for His abundant goodness and blessing all through the years. He has been a subscriber in The Intelligencer for 50 years and school teacher in his native for 30 years.

## GROWING DEAF WITH HEAD NOISES TRY THIS.

If you are growing deaf or hearing and fear Cataract Deafness or if you have ringing, rumbling, hissing noises in your ears go to your druggist and get 1 ounce of Parmit (double strength), and add to it 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Grogged nostrils should open, breathing becomes easy and the mucus stop clogging into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Cataract Deafness or who has head noises should give this protection a trial.

Soreness, "stomach of mortals," is supposed to have lived on as income of \$12 a year, but that, the historians records, his manner of living was inferior to that of the slaves. His coat was old and shabby, and he wore the same garments both in winter and summer; he was not clean, and his food was bread and water; and "as he neglected his person and his house he neglected his estate and increased his fortune." It is not wonderful his wife, the famous Katharine, should often have been told that she was a fortune teller. Her mother paid \$155 a year for their board, and provided the house for the bargain. A young man could be educated and married in those days for \$155 annually.

From 1800 to 1850 many men were exceedingly modest, but so were women. A great deal of money was then made in the fur trade. The fur trader was a man of great energy and industry. More manual labor could be procured for 10 cents a day than it could be for 10 cents a day in 1850. It seems to have been the lowest rate "and is not lower than the present price of labor in many parts of Europe," says Macaulay, written in 1855.

Message from Montreal.  
Talk about messages from Montreal! How about the mysterious willings that the owners bring up from the ruins of water sport? These "water sport" are quite commonly seen in the city, for distribution among musicians and collectors. The silks are polished, that process bringing out with distinctness certain strange markings called "Widman's" figures.  
The marriages are not alike in any two sections. Scientists say they are due to crystallization. But pool and (stagnant) water. They are hieroglyphs, waiting to be deciphered by some ingenious person who will find out how to read letters depicted from the water sport.

Ask the girls how it is, it's so.

## GUARD AGAINST CHILLS

Simple Protection Against Dangers of Cold and Damp.

Eliminate the habit of taking a lot of hot, dry-air, into a room, before going out in the cold or damp. Such weather is a lot upon the system, and the strengthening and warming power of the concentrated hot-weather bottle you get, the only consequence of the exposure.  
If the sun of Oct. 10 is new to you, try a tin of four cubes. One greatly improves grates, stoves, or lamps, and is a delightful, warming and appetizing beverage. It is excellent for children.  
Whether you use Oct. 10 prefer the larger time of 10 and 50 cubes, using them in many different ways in place of meat.

## A Paris Chemist Has Discovered How to Grow Hair

In Paris the ladies have entirely abandoned wearing veils, which is due entirely to this new discovery. It has been proven that certain herbs contain ingredients that will positively grow hair. That they contain this long looked for article proves every day.  
The French are now playing on the market a preparation containing the extract from herbs and leaves, which is having a phenomenal success.  
This preparation is called "DEL. MARY FRENCH HAIR TONIC" and is being sold with a guarantee to remove dandruff and to grow hair in abundance. Being dandruff perfume, makes a most pleasant dressing, and is sold by your druggist. Price \$1.00 a bottle. Sold in Belleville at Doyle's Drug Store.

## "My Friends Must Hear That Wonderful Voice"

You listen to a great singer. The beauty of the rendition almost overcomes you. Yet, mingled with the pleasure is a new desire. You must hear that voice again—many times. Also your friends must hear it, because you wish to share such joyful emotions with them.  
With the New Edison you can do so. The New Edison belongs to your own home the world's best made by the world's greatest artists. And as you doubtless know, the New Edison does more than imitate or mechanically reproduce this great music. The New Edison actually makes it.

A few weeks ago Miss Ellen Peeler came to this city and sang in direct comparison, with the New Edison. Part of the time you were hearing the artist and part of the time the New Edison. BUT you COULD NOT TELL THEM APART. There was no difference. The New Edison gives you in your own home everything but the living presence of the artist.

Let an exhibit to you at your own home the marvellous music power of the New Edison. We will on request bring a New Edison to you, after demonstrating it, leave it for you to examine at your leisure. Take advantage of this pleasant method of inspection.

## Brooklyn Dodgers Face Waterloo in Cleveland

WORLD'S BASEBALL SERIES GAME ON MONDAY WON BY CLEVELAND TEAM—WIN TEAM MEANS FINISH OF SERIES—CLOSE GAME MONDAY WON BY SMASH TO BLEACHERS.

Special Dispatch to The Intelligencer, Cleveland, Ohio, Oct. 12.—The Cleveland Indians, who have won the championship of the National League, today defeated the Brooklyn Dodgers in the second game of the World Series, 4-3, in a thrilling contest which was held at the Municipal Stadium in Cleveland.

The probable lineup for the Indians was as follows: Pitcher, Walter Johnson; catcher, Hank Gowdy; first base, Sam Rice; second base, Everett Ruess; third base, Ray Chapman; shortstop, Joe Judge; left field, Fred Clarke; center field, Ben Zito; right field, Fred Luderus.

The probable lineup for the Brooklyn Dodgers was as follows: Pitcher, Dwight Gooden; catcher, Ray Schalk; first base, Fred McGriff; second base, Fred Luderus; third base, Ray Chapman; shortstop, Joe Judge; left field, Fred Clarke; center field, Ben Zito; right field, Fred Luderus.

The game was a close one, with the Indians leading 3-2 in the seventh inning. The Brooklyn Dodgers were unable to score in the eighth and ninth innings, and the Indians won the game 4-3.

The Indians' victory today means much to the fans of the team, as it is the first time they have won a game in the series. The Brooklyn Dodgers, on the other hand, are now down 2-1 in the series.

The game was a thrilling one, with many home runs and a great deal of hitting. The Indians' pitcher, Walter Johnson, was very good, and the Brooklyn Dodgers' pitcher, Dwight Gooden, was also very good.

## SPIRITS AND SPEAK EASIES—A BONE-DRY DISSERTATION.

Wasn't it a rich man who died and landed in a bone-dry place, where even a drink of cold water was denied him?

Some plane, that? Rich men on this plane have vaults where thieves can not break through and steal and where moth and rust can't get over-whelm. The combination on the vaults might be J.A.H.N.C.G.O.L.L.N.S. or something "just as good," and the spirits of just men are made perfect in spacious temperance with ice in cut glass receptacles.

Some plane this, BUT—

Oh, Boy! Oh, Joy! Where do we go from here?

## INFORMATION WANTED AS TO HOME-MADE WINE

How closely The Intelligence is read is evidenced in many ways. The latest demonstration of the multiplicity of readers of this family journal occurred as the result of the publication of a paragraph on home-made wine which stated that it was necessary to get permission from the Internal Revenue Department to make wine, whether grape, distillation or other vine, and that the absence of such permission laid the householder making wine open to a fine of two hundred dollars.

A Kingston paper first gave publication to the home-made wine statement in question, and considering that the fact was on straight. The Intelligence thought it wise to pass the information along to our readers.

It appears, however, that the information is more misleading than informing, for the Internal Revenue officials at Belleville declare that department has nothing whatever to do with home-made wine.

Since the publication of the article in question there have been many inquiries at the office of the Internal Revenue officials and at the Intelligence office, showing that the home-made wine question is one of considerable importance to many.

According to the Ontario Temperance Act, the making of home-made wine is in its initial stages does not develop more than a two half per cent. kick, but it has possibilities of lousy development under favorable conditions.

Inasmuch as a great many people putting up a little home-made wine this season an official ruling from the Ontario License Department would be in order.

## WOMEN FROM BRITAIN

FIELD REAR WIVES. The London, Eng., Daily News has a letter from Ethel M. Richardson, who is travelling in Canada and writes from Medicine Hat, Alta., of the work of the Soldier Settlement Board.

She has come in contact with many of the wives of soldier settlers. In the prairie provinces, and comments on the efforts of the Board to comfort and assist the wives who have come overseas to make their homes in the western world.

"Canadian women are wide-awake to the fact that this is a woman's century, and they have formed local councils, which represent all the different women's organizations of the district. The importance of home-making was impressed upon the Soldier Settlement Board, a Home Department was formed, under the presidency of Mrs. Muldrew, of Ottawa, and Saskatchewan led the way by instituting a series of short courses in domestic science and home nursing. These have been a great success."

Theological courses of instruction with the home nursing course, the University had the Red Cross, and arrangements were made for conferences to be held at convenient centers. Seventy-five per cent. of the soldiers' wives who attended the Ontario branch, and of an excellent type, and these girls especially appreciated the lessons on bread and "pie" making (a Canadian pie is a national dish, and differs from the English variety; men have told me that they were never on "pie" before a day in the bread).

# SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved by "Fruit-A-Lax"

LARRY REED DUN, C. D. "I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headache and did not sleep well at night. Finally, a friend told me to try 'Fruit-A-Lax'. It was a week, but the Constipation was corrected and soon I was free of pain, headache and all ailments. Feeling that this was a permanent cure, I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON, 100 N. 4th St., St. Louis, Mo. At all druggists or sent postpaid by Fruit-A-Lax Lintell, Chicago.

CALEB G. GARRISON.

Caleb G. Garrison, son of Frank Garrison and his wife, Susan Garrison, a New Kenton, Va. born March 18th, 1895, in the 4th Congressional District and departed this life at the General Hospital, Toronto, August 28th, 1920. "Caleb" was called by many a person of splendid noble qualities, of fine personality and a generous character that made him a general favorite and was for him a life of self-sacrifice and devotion to his commoner relatives and friends. It may be said that he was a man of faith having kindly and benevolent regard for all with him a long list of acquaintances on both sides of the water. He was a patient and kind hearted man and was a great help to the sick and the aged. He was a man of high character and was a great help to the sick and the aged. He was a man of high character and was a great help to the sick and the aged.

Mr. and Mrs. George, the oldest daughter here, administered the service at the funeral, which was held at the funeral home, 100 N. 4th St., St. Louis, Mo. "Patience! Little brother!" I said, or something of that sort, to which my friend made no reply. "I asked him how he could prove that to be true, and if, by way of a joke, he would say anything to me. He answered that that was the age of his blindness, and that he was a man of high character and was a great help to the sick and the aged."

"I thought that perhaps I should say that, if I could not see, I would be a man of high character and was a great help to the sick and the aged. I thought that perhaps I should say that, if I could not see, I would be a man of high character and was a great help to the sick and the aged."

"The experienced that it was a good thing that a dog should, when he had gone blind, still have some one to take care of him. I thought that perhaps I should say that, if I could not see, I would be a man of high character and was a great help to the sick and the aged."

"But, alas, I have been a great dog for many years. I have been a great dog for many years. I have been a great dog for many years. I have been a great dog for many years. I have been a great dog for many years."

"It is rather surprising that the great poet should have given us such a wonderful dog. I have been a great dog for many years. I have been a great dog for many years. I have been a great dog for many years. I have been a great dog for many years."

"There was the noble dog, Mr. Alfred, that I had seen in the street. I have been a great dog for many years. I have been a great dog for many years. I have been a great dog for many years. I have been a great dog for many years."

"Albion 'wank' as a writer in one of our magazines has said, 'The dog is a wonderful creature. I have been a great dog for many years. I have been a great dog for many years. I have been a great dog for many years. I have been a great dog for many years.'"

months and the morning earlier than dawn came his death. He and they would surely live in the hearts and prayers of the whole community. The remains were interred in the Valley Cemetery, Conn.

# MOCKWORK FOR MEK.

They May Now Trade the Women's Natural Sexes.

At the recent convention of the Association for the Advancement of Progress in Education, held in Washington, D.C., last week, a resolution was passed that the women should be allowed to wear the men's suit and to wear the men's hat.

The view of the officials of the present position and the growing inclination of women to accept themselves with interest outside of the household, it is of obvious importance that the men should be allowed to wear the women's suit and to wear the women's hat.

## Sugar Order Suspended By Federal Government

ERNOR-IN-COUNCIL OCTOBER 20—STATEMENT BY  
REFINERS—FEAR RUIN OF INDUSTRY—BOR-  
DER CITIZENS BUYING SUPPLIES IN  
UNITED STATES — PREMIER

**POSTPONES TRIP.**  
OTTAWA, Oct. 14.—Before the order of the Board of Commerce, fixing a maximum price for sugar and restricting trade in that commodity, was put into operation, it was suggested that the trip to the States should be postponed.

The Order-in-Council suspends the sections placing "limitations upon importation to purely Canadian channels, has been taken by the Cabinet itself after the Government had previously heard by the Cabinet itself of the arguments for such action upon a report by the Minister of Justice expressing his conviction that the Board of Commerce had no statutory power to promulgate such an order. Furthermore, the Minister and the government both state that the powers conferred upon the board were never intended to "restrain for the purpose of enhancing or maintaining prices buyers or sellers of commodities from dealing with the public at large, and to limit them to buying or selling from us to only certain specified classes of the community with the effect of practically prohibiting importation into Canada.

The order-in-Council suspends the sections placing "limitations upon

The Government in its order-in-council does not specifically refer to the sections of the order fixing the maximum retail price of sugar at 21 cents a pound plus freight. It makes the price fixing provisions ineffectual, however, by removing the provisions relating to trading and consequently the ban against importation of sugar from the United States.

Premier Meighen was obliged to leave Ottawa to fulfill his engagement at Staffordville before the conclusion of the last interview of the sugar refiners with the members of the Government on the sugar question. The refiners desired action which would give them a representative of the Government to whom they could appeal until they had disposed of their stockpile of sugar. They were told that such a representative would be appointed and had avoided a situation which might cause them heavy losses. The Board of Commerce carried the case to the Board of Commerce on Tuesday. The Board

gives its judgment yesterday. The Prime Minister and his cabinet met this morning after his East Eu-  
test announced by the Board of Commerce order. That judgment was discussed at a meeting of the Cabinet Council, which adjourned early this afternoon. The order-in-Council, which adopted, signed by the Governor General and made public this evening.

view, chairman of the executive committee of the Third International and one of the four big chiefs of Soviet Russia, pleaded with Independent Socialists at their convention here to join with Moscow and create a new world revolution. At the conclusion of the protest, the program of the party and the audience in the packed galleries stood with heads singing the Internationale, while Conservatives watched out of the hall. A fiery oration was their accorded Zinoviev with many "hubs and crines of 'Long live the Internationale' and waving of hands. I expected the rest as to whether the independents will adhere to Moscow organization will be taken some time today.

STYLE HEADQUARTERS  
Where Society Brand Clothes are sold

To the young man who worries about how his clothes look

Every young man is embarrassed with the belief that all mankind is solely engaged in observing his manners and appearance.

As he grows older and acquires wisdom, he learns that this is not so yet he feels that it is the part of a gentleman to clean and deport himself as if it were so.

Society Brand Clothes  
MADE IN CANADA

are for young men because their acknowledged leadership keeps the young man conscious of good appearance.

They are for men who stay young because staying young is not a matter of age but of the mind and the character of youth. Youth is not a matter of age but of the mind and the character of youth.

## Thirtieth Annual Convention of Woman's Missionary Society

SPLENDID GATHERING HELD AT WALLBRIDGE-INTERESTING ADDRESSES BY RETURNED MISSIONARIES—SOCIETY IS OFFICIALS AND ENERGETIC

The thirtieth annual convention of the Woman's Missionary Society was held at Wallbridge, Ontario, on Monday, October 13th, 1920.

There was a morning and afternoon session, the morning session opening with devotional exercises conducted by Mrs. Macfarlane and Mrs. Phillips of Wallbridge gave the ladies a splendid greeting, after which the Misses Wallace, assisted by their father, the Rev. Mr. Wallace of New Credit, rendered a fine staid. The rest of the morning session was a business session.

### OFFICERS ELECTED

The new officers for the coming year were elected as follows:

Mrs. Macfarlane of Fallowell, was unanimously elected as district secretary a position which she held last year.

Mrs. C. Day of Fallowell, was elected as assistant superintendent, after which Mrs. Macfarlane read a few words and then she was to be the help of Miss Day in the general work.

## WILLS HIS SISTER WHEN WAVING HER GOOD-BYE

Windsor, Oct. 19.—Christina McKay, fourteen years-of-age, a daughter of Archie McKay, is the Orwell settlement, was last night killed by a shot from a rifle carried by her brother.

The little girl was sitting by the window of a house, and her brother was leaning over the railing, waving his goodbyes with his hand. As he did so, he was hit in the chest, and the trigger caught in his hand, firing the cartridge.

The bullet went through the window, splintering the glass, and struck his

## THOUSANDS OF BUSHELS OF APPLES ROTTING

Stinson, Oct. 19.—Thousands of bushels of apples are rotting, waiting to be picked, the fruit and a market for them. The local factories are closed, and a small proportion of the amount available. The proportion that will be harvested through the association is 10 per cent of the bushels of the entire yield, and a deal of the latter is coming from orchards that have not been properly cared for.

## VOTING AS DUTY

Bathurst, N.S., Oct. 19.—Suggesting his general advice to voters in register and vote, Cardinal Gibbons has issued an oral statement through his secretary urging voters of the various orders of the church to take the vote.

In his address to the sisters of the convent, Cardinal emphasized the fact that they were in no sense bound to register and vote, but that, nevertheless, it was a duty which belonged to them in common with other women. He recommended strongly that this duty be observed.

## "Pals" of the Highway

You Grow To Have A Real Affection For These Friendly, Dependable Tires

They stand by you so well. They stand up to the work so sturdily. They ease you over rough places. They purr along the smooth highways. And your speedometer shows that they certainly have given you the mileage.

After DOMINION TIRES have shared your pleasures for a season or two and have met every condition of road, weather, business and pleasure, you grow to have an honest admiration and a real affection for these friendly, dependable tires.

Six different treads for every car and every purpose—DOMINION INNER TUBES too—and a complete line of DOMINION TIRE ACCESSORIES, all carried by the best dealers throughout Canada, from coast to coast.

## Open Market For Sugar Must Be Maintained

GOVERNMENT MAKES SHORT WORK OF REFINERS' CLAIM FOR EMBARGO ON AMERICAN SUGAR—CANADIANS MUST NOT BE DENIED OPPORTUNITY TO SECURE HIGH SUGAR.

OTTAWA, Oct. 21.—The hearing before the Government in the sugar case has come to an abrupt conclusion this morning.

The referee failed to establish a case, and without calling upon the other side for a reply, Premier McGowan announced that the hearing was closed.

The Cabinet Council at a special meeting, following the hearing, passed an Order-in-Council declaring permanent the suspension of the Board of Refiners.

In other words, there is now an open market in sugar and the Canadian householder will be able to secure supplies at whatever prices market conditions dictate.

If sugar can be secured at lower prices in the United States, Canadians are free to buy there, should the domestic trade be unable to make similarly favorable quotations.

## MUSIC AND DRAMA

(What the Press Agents Say)

**THE MAID OF THE MOUNTAINS**  
 "The Maid of the Mountains," the biggest spectacular musical comedy ever seen in the world's history with the entire London company will be the attraction at Griffin's Opera House next Thursday night, October 22nd. "The Maid of the Mountains" comes here direct from Daly's Theatre, London, Eng., where it ran for five years breaking all world records for a continuous run of one musical comedy. The piece is described as a musical play in three acts, with the book by Frederick Lonsdale, lyrics by Harry Graham, F. Clifford Harris and Valentine, music by Harold Frost-Schoen and additional numbers by James Tait.

It is a George Edwards production brought intact to Canada under a special arrangement with the Estate of George Edwards and will be offered here as originally staged by George Edwards.

Among the musical numbers, most of which have already found their way to Canada via "His Master's Voice" are "Friends Have to Part," "Love Is Today," "My Life Is Love," "Farewell," "Drinking the Spell," "We're Together Here," "Love Will Find a Way," "Shore Life," "The Maid," "A Paradise For Two," "Hills and Vines," "A Babylon City," "Unlabeled," "When Each Day," "When You're in Love," "Love There and There Here," and "Frimble and Love."

The music is "The Maid of the Mountains," is almost perfect in its beauty, soul-stirring grandeur and brilliancy and it requires a rest and

chorus of highly trained voices to interpret it. For that reason the entire London company is being brought here intact.

After a limited tour of the larger cities in Canada the piece goes to the States where it will undoubtedly have long runs in both New York and Chicago.

## W.C.T.U. Concludes Convention Work

**Resolution on Marriage Health and False Registration Adopted**  
 WINDHAM, N.S., Oct. 21.—At the annual W.C.T.U. convention, the final report of plan of work and resolutions committee was submitted and passed.

The report was read by Mrs. N. B. Piggley, of St. John, N.B., and embraced a variety of plans for future work.

Among the resolutions passed were the following:

To put an organizer in the field for travellers and work to subvert the anti law for interfering the U.S.

"That the Federal Government be memorialized to suppress both the editing and circulation of anti-British propaganda and other pro-British, especially the Hearst publications, and that the use of the British flag be forbidden for this purpose."

Also that at regular intervals the membership of journals be declared by oath and that all work applicants be personally examined and approved.

"Whereas the health of our nation is being seriously injured by the consumption of alcohol and the mental and moral status harmed by the marriage of the youth and the loss of our navy ships, therefore

Recommend that this convention work through its various fraternal organizations to notify these youth (men and boys) and submit the plan of preventing indeterminate future of marriage. Because, and introduction of that having been found to be subject to a heavy penalty should be held in the country people be at least to fail to give him a clear bill of health from a duly qualified medical practitioner, and furthermore

That we again memorialize the Federal Government, asking that all ships and all vessels, and other ships in place be made removal and have previous clearance."

## Ships that Pass in the Night

### Foreign Trade is Essential to Domestic Prosperity.

Elbe—stagnation at home. New routes must be opened, Canadian Trade Lines must be established and maintained. With ships, the markets of the world are open to Canadians. Canada produces a surplus of necessities. Commercial supremacy means—the ability to carry where and when required, to sell without interference, and

### Demands the Freedom of the Seas.

By willingness and ability to provide ships, Canada this year has drawn the West Indies closer to herself and to the Empire. She can make preferential trade agreements with other peoples

under the British Flag, without arousing international complications.

The trade of 45,000,000 people in British Tropical Africa is waiting for us to-day.

### Trade Follows the Flag.

The very existence of the Empire depends on it. But to secure trade there must be ships and men with adventurous spirit to man them—and men with vision to seek out markets.

The Navy League advocates a Merchant Marine, officered and manned by Canadians trading from Canadian ports.

Politics have no place in this matter. It promotes a national ideal. Commercial and agricultural prosperity depend upon it.

Unless we develop Overseas Trade, we may become mere heavers of wood and drawers of water for other nations.

To carry on this work costs Money. The money must come from the Public.

## Good Work Accomplished By W.C.A.

Continued from Page One and Magdalen and Jill have all done splendid work in their different branches.

The Association takes this opportunity of thanking the Red Cross and Patriotic Society for the privilege of using their system of raising money by the Penny Bag monthly collection. The latter has been tried for eight months and has proved very satisfactory.

We also wish to thank the Auditors and the Advisory Board for their counsel and the many friends of the Association for gifts.

Today the Association faces a situation of great difficulty, that of sending out their system of raising money by the Penny Bag monthly collection. The latter has been tried for eight months and has proved very satisfactory.

I thought it might be interesting to give a short history of the sister societies of our work. In the Spring of 1918, it was shown by the Hospital Management and the Medical Staff that we needed more wards, both private and semi-private. The Board was called to take the matter up. At that meeting, resolutions were passed advising as to the work, and to engage an architect to make plans. This was done and the necessary plans were provided, along with the necessary services of Miss Kewen, our superintendent, we have a most desirable and up-to-date maternity ward.

In opening the third day of the new

What we thought it was to improve the accommodation for our staff of help. Their sleeping rooms are upon the third floor of the main building. They were overcrowded and contrary to the sanitary law. We had the interior taken out and plans drawn so it has been stabilized and furnished, thus adding materially to their comfort. On that fact we have three semi-private wards, bright, airy and well furnished.

In carrying out we had aimed at large things. We were ambitious to bring our splendid hospital to a high standard of efficiency, to make it second to none of its size. While we have done much we have not finished our plan. The high cost of material and labor has been a serious detriment to the completion of our work.

We have expended from May, 1919, to September 30, 1920, on extraordinary repairs \$122,575.72. Expended on follows:

Completion of Upper Flat including Store House and extra charge to the Basement \$124,528.39  
Furnishings \$4,177.33  
Sewer-ditching, Plumbing and Painting \$4,606.28  
Selling \$3,810.20  
Covering for Floors \$1,059.09  
Plat and Scaffolding \$3,067.57  
Installing Electric Elevator \$745.00  
Furnishings \$55.00

The work we have not accomplished consists of the following:

Rebuilding the veranda on the back of the hospital.  
Painting the woodwork on the outside of the building, including the 2-day machine, and electric foot bath, finishing improvements already commenced in the basement, such as cold storage plant, new pumps, new storage, pump and lines, and cold bin for meat cool.

We need changes made on the first floor, consisting of a white room for the patients' friends and an office.

The last great need I shall mention is the need of a motor ambulance. We had hoped that some of the many or

and provide something more comfortable for the use of an ambulance. At any such time of emergency, the Association is, however, not so big undertaking, but they have not understood the compelling forces of necessity, and completion that were behind us, nor the irremediable loss of vision beckoning us forward.

Signed on behalf of the Hospital Board,  
Margaret E. Hopkins,  
Superintendent for the Year 1919-20.

**B**EHIND every Laurentian Farm there is a sacred spot. It is the place where vegetables grow. There are rows of cabbages, tomato plants, a patch of corn, the square where several rows of corn and beans and peas are growing. The wild strawberrys, which the children love to pick from the hills and save Madame to plant, there are the small and green winter beans, and in a sheltered nook all the corn, and planted peacefully by the door when he comes home from work at night, there is the patch where the tobacco plant grows.

It is no joke to value anything at all in the money-minded soul of the Laurentian Mountain. As you drive past the farms in the summer season you are in every one of them a busy household, moving along with the corn and beans and peas. Drive out in the early afternoon sun, and you see Madame and all her little ones in this recent position on the mid earth. They move along, interest-eyed, hunting for caterpillars.

Drive back from your pleasure trip in the cool evening, when the sun has gone down in a bank of fiery clouds and only the cool dry dark is above you, and still you see the heavy procession, still caterpillar hunting, still on the move.

Now with the dusk Monsieur has come home. He is to be laid at work-but not on vegetables. Monsieur's heart and soul are in the tobacco plant that later he will smoke.

**T**HE OLD men stand outside the cottage door—stand outside every cottage door as you go about the high-road just inside the town. In the village itself there are some of whom that I never almost a past just no longer. There are the village houses, and sometimes even in the bigger, richer farm-houses, there are up-to-date houses with first-class owners, and in such cases as these the old ones just outside the door. In the little yard before the house, stands empty and unoccupied.

It is a half city and half an ad-

## The Hidden Parts

Fit-Reform tailors are like the engineers of a great office building. They know that the beauty and permanence of the parts you see, depend on the strength and faultless workmanship of the hidden parts.

In the case of Fit-Reform Suits and Overcoats their graceful lines, their elegant appearance, their permanent shapeliness, depend on the intricate painstaking hand work of the hidden parts.

It is this faultless hand tailoring which makes  
Fit-Reform garments look so well and wear so long.

been given for many years just in British Columbia, better or worse than other Provinces in this respect. The so-called "dry" law has been given a fair trial and found to be a failure in the case of this Province in the sense of prohibition wetness. The law has no friends, either there or elsewhere. But they do not seem to care to make any change in the conduct of the liquor business.

**Vancouver World:** Supporters of the Prohibition Act labored under the impression that the winning of the vote, posted fatal to their hopes, would give them a mandate to make some of wine civilized to a number of the French outlook.

The Government, however, is not so fastidious to the State House to permit release the wine. This is in a demand that the Temperance partners release the wine. This is an official decree to do, but on condition that a number of it be embargoed on New York and New Orleans, and to Washington, where was date.

Subsequent shipments of wine in liquor to other embassies were stopped.

no reason for the Province Act is condemned and Government control and sale of liquor is preferred by an overwhelming majority of the people of British Columbia. This majority is so large and so generally distributed throughout the Province as to leave no possible room to question the validity of the decision. As the record stands, it cannot be to the disadvantage of a clear and de-

able statement that the British Columbia people are at present opposed to the principle of prohibition. Any one is free to discuss the question whether it is right or wrong, but after three years of the fiercest prohibition they have said that they do not want it any longer.

**Illicit Trade a Scandal.**

Victoria, Colonial: The desire of the people, in the light of the experience of the United States, to prohibit the sale of liquor, during the past three years, is obviously in favor of a measure which

Stinson of the Canadian Assurance Corporation 'Co-operative Institutional Advertising.'"

A feature of the meeting is

will promote intemperance, instead of a prohibitory law. Doubtless the result was contributed to by the illicit trade in liquor which has become a scandal in this Province. The effect of what has been done here will undoubtedly be felt in its remotest consequences much farther afield.

Seven Years of Age

Margaret Crawford, aged seven years, only daughter of Mr. and Mrs. John Crawford, who reside near Marmona village inflicted injuries upon herself whilst handling a gun, death resulting. It appears that the parents went to Marmona village and left their youngest son, aged 3 years and Margaret at home. Apparently the children got a 14 repeating rifle, which was in the house and were playing with it. The gun had an empty shell in it and one cartridge in the magazine. The

other cartridges had been put away out of reach. It seems they pumped the cartridge into place and the father hit the house for a minute and while out loaded a shot. When he ran in his sister was lying on the floor with the bullet hole through her just below the throat. The older brother arrived home about the same time and some of the neighbors were notified of the accident and a call sent to the village for the parents and the doctor.

## For Bachelor Blues

There are blue days, days when you are in a reminiscent mood, days that are partly glad and sometimes sad. That's the time of times to have a

## Columbia Grafonola

Put on the cheer-up records, enjoy a rhythmic waltz. Play the dance tunes and wind up with a tip-top jazz. That's the way to be yourself again.

Don't fret about stopping the Columbia Grafonola. It has the only *Non Stop Automatic Stop*. Nothing to move or set or measure. Never stops before it should. Always stops at the very end: just put on your records and start the Grafonola. It plays and stops itself. Come in and let us demonstrate the stop that needs no setting.

ANDREW WILSON & SONS TORONTO AND PORTLAND

The men were dragged to shore and placed under military arrest. They maintained a defiant attitude while they were being searched. Soldiers stripped off the civilian garments to reveal the uniforms beneath. The hand-bag carried by one of the party yielded four disgauses. All Irish ports were under close watch with instructions to soldiers on duty in sets that no other "vengeance" party boarded ship.

## A Miser Hates to Spend Money!

—consequently cheats himself by spending so little for what he buys, that he gets less than what he pays for.

The economizer willingly pays the right price, but sees that he gets his money's worth.

Real economy means—buying right, not necessarily the lowest price—the best is cheapest. In underwear real economy is—

THIS IS THE NAME  
**CEETEE**  
THE PURE WOOL UNDERCLOTHING THAT WILL NOT SHRINK  
"The Woollen Underwear without the Itch"

"CEETEE" is manufactured from only the very finest Australian Merino Wool, combed and combed over again until every particle of foreign matter is taken out and every strand is as clean as it is possible to be made.

It is then carefully treated on expensive and exclusive machinery, very different from the ordinary style of underwear machinery, finishing each strand to fit the form. It has all the advantages, therefore cannot cause burnout; every joint is buttoned smooth, not even as with ordinary underwear.

"CEETEE" is made in all sizes for men, women and children.

Two things to remember:

- 1—Buy "CEETEE" if possible.
- 2—if you can't buy "CEETEE," be sure to buy "Turnbull's."

## Called by Death

MRS. WILLOUGHBY WILKINS.  
In the demise of Mrs. Willoughby Wilkins, which occurred this morning at the family residence, 93 Ontario street, a well known and much respected lady has entered into rest after having suffered for some months. Deceased lady was born in Richmond, and on July 18th, 1852 was united in marriage to her now sorrowing husband. Later in the same year Mr. and Mrs. Wilkins came to Canada and settled at Belleville, where they had since resided. In 1874 Mrs. Wilkins joined Christ Church and had ever been active in church and philanthropic work. She was a member of the Parish Guild and Women's Auxiliary of Christ Church, was a member of West Belleville Women's Institute and War Workers. During the war she with a noble band of ladies did what it was possible to do for the comfort of our soldiers here. In her pastoring the Church and societies have lost a valuable helpmate. In addition to the home she had a family of two sons and five daughters survive. The sons were Harry, of Toronto, and Meridian, of this city. The daughters are Mrs. Hugh Hamilton of St. Catharines, Mrs. A. Matheson, of Cobourg; Mrs. S. R. Gibson, Mrs. Ernest Tucker, and Mrs. Ernest Verner, all of this city. To these called upon to be in the loss of a loved one will be extended the heartfelt sympathy of many friends.

## ROSE J. E. GRIER.

At Toronto yesterday Miss Rose J. E. Grier, Lady Principal of Bishop Strachan School, passed away. Deceased was a daughter of the late Rev. John Grier, who was for some years Rector of St. Thomas' Church in this city. The lady will be greatly missed for her interest.

## WIFE DESERTER WANTED.

Child of Police P. J. Der, Owen Sound has, effected the local police department to assist in a search being made for James Wilson, wanted in that place for sale desertion. Wilson, who has been the alias of J. Watson and J. Brown, is 32 years of age, five feet and eight inches in height, weighs about 100 pounds, dark hair eyes, slightly curved lower lip, and may possibly have a light moustache. He is a member for trade.

## GRANT TO NAVY LANCE.

At a meeting of the Belleville Town Board held yesterday a grant of \$100 was made by the Navy League of Canada after the matter had been explained by Messrs. E. B. Harkness and J. L. Zeff. Chief Clerk of the Public was present and advised the members, stating that the committee had been appointed on this matter, and that the Navy League had agreed to receive the money in accordance to terms. Mr. Elliott expressed his pleasure in the grant, and said at 22 Sec. and 23 Sec. for terms.

## CARS TAMPERED WITH.

Two cars, belonging to Mr. D. K. Kordian of St. John's, and Mr. Hall of Toronto, were tampered with and left with wheels pulled near the next office. From the latter car a tire and inner tube were found. Both cars were removed from the spot where they had been left.

## A VOICE FROM LONDON.

The manager of the "Maid of the Mountains" production himself a member of the British Navy during the war, addressed the audience at Belleville's Theatre Thursday evening between the acts, urging support for the Navy League Campaign, and speaking very highly of his old London friend Captain Ber. S. Bond, who followed with the stirring appeal to the audience to stand by the committee in behalf of the widows and orphans of the men of the Merchant Marine who gave their lives during the war for the Empire.

CHIEF—At St. John's, Hospital, Maple street, Toronto, on Thursday, October 22nd, 1920, Rose J. E. Grier, widow daughter of the late Reverend John Grier, rector of St. Thomas' Church, died at the age of 67 years. She was a member of the Bishop Strachan School, Toronto, and was buried at the Mount Pleasant Cemetery, Toronto, on October 23rd.

Funeral services will be held at the Belleville, Belleville, 11:00, for Dr. Rev. Mr. F. Harkness, 2:30.

## English Musical Comedy Pleasing

"The Maid of the Mountains" Well Presented at Belleville

Next to "The Chin Choo," the entertainment regarding which the returned star stated most enthusiastically was "The Maid of the Mountains." This musical comedy ran along for over three years in London and the new in khaki saw it wherever they were on tour, and there are very few Canadian houses which have not heard of its pleasing qualities or the charm of Jean Collins, who played the title role in the Old Land. Several seasons ago, the piece was tried in New York, but did not please the Broadway jury so that "The Maid of the Mountains" did not reach so far the United States, as was the case with "The Chin Choo." Why one notable American manager did not see the value of "The Maid" is an offering in Canadian territory remains to be explained. However it was fortunate for the Trans-Canada Theatre Company, that some of them did, and the piece was successfully available as the first presentation to be made by the new Canadian organization, which aims to bring British star and play to the Dominion. The Trans-Canada Theatre Company wanted to start off with a considerable hit and there could be no doubt about "The Maid of the Mountains" meeting in this country on account of the sentimental interest surrounding it, if nothing else.

Theatregoers of Belleville and the surrounding district were anxious to see "The Maid of the Mountains" that the house could have been sold out twice over, as it was every seat was sold as fast as the tickets could be handed out the day the play opened. Picton, Trenton and the entire Belleville theatre district which in these days of fast automobiles and good roads endures a lot of territory well represented and every seat was filled from start to end, even the boxes overflowing.

"The Maid of the Mountains" is a typically English musical comedy. It tells a direct story of a maid who is betrayed the chief of a rubber gang because she was jealous of her love for another woman and then having repented of her action, she did her best to save him. The heroine of the piece is as robust as the plot. There is a comic subplot and a comic subplot with the general's funny servant for good measure. Either eye or other of before and at times the whole three of them take part in every scene so that the laughter runs along side by side with the romance and the sentiment. Musical comedies of this description used to be common enough on our stage when the New York producers made new importations from London, but they have given place of late years to the "imitation" shows, the operetta and similar entertainments. That is one reason why "The Maid of the Mountains" proves a pleasant change back from the vagrant modern to the slightly old-fashioned musical show. The music is bright and tuneful, even though the composers can hardly be credited with great originality and it contains too "pat" or similar suggestions of recent invention. Without being in any sense of the form a clever there is a great deal that proves decidedly attractive in "The Maid of the Mountains."

How the performance at first night Theatre company, with that even in London, the address will have to tell, shows obtained for the tour of the Dominion is a satisfactory one. Miss Vivia Brown, who sings the title role, has a particularly pleasing soprano voice and sings with excellent taste. Miss Brown stands out as the best female vocalist heard here on the light opera stage since the advent of the interpretation of every number. Mr. Paul Plunkett, the baritone, is another competent singer in the cast, and the comic, especially the male, are very clever. Mr. Fred Wright, a broad comedian of the old school, has the role of the comic rubber. Tom, and proves that old methods will get very laughs and Mr. Richard D. Wray, who plays the role of the rubber, is very good. The offering is staged with a plenty of laughter in some effects and costumes.

## HIGH BLOOD SECRET OF GOOD HEALTH

Here is a Suggestion Along That Line

This impoverished blood results in pale, sickly complexion, enervated muscular condition, and hence no robust strength, energy or addition of people here think that the great remedy for this condition is Vinol, that concentrated cod liver oil tonic without salt, oil, or any of the bad purgatives and glycerophosphates contained in it, sets very quickly in proving thousands of red corpuscles in the blood. It purges the circulation, and in this natural manner restores strength, vitality and energy. Hundreds of people in this country have attested to its value.

A few well chosen words about Indersoll's Reliance

RELiance is the seven jewelled aristocrat of the Indersoll line.

You might also call him the "survivor of the fittest." For in perfecting Reliance 362 other makes of watches were studied for "points"—and the result is a watch with the best features of all of them and twenty-nine less parts than any of them.

Furthermore, Reliance is tested to test accurate time in six positions—two days in each; and this after 127 factory inspections.

And so he's no amateur when he leaves the shop, but a competent professional.

You'll have to go way up in the watch world to find such a slim, smart, distinguished time piece as Reliance.

If you find one, all cost you a lot more than the Reliance price, which is only \$22.50 in nickel case; \$14.50 in gold-filled.

# Called By Death

EDWARD METCALFE

Death came suddenly to a well-known Pictorial artist on Saturday morning last when Mr. Edward Metcalfe passed away from heart failure at his home on York street. Mr. Metcalfe had not been in good health for some months but was around and well until his death. Saturday morning he went to the bank and was found shortly afterwards with his heart.

Edward Metcalfe was born in the west side of South Maryland in 1864. As a young man he moved to Northumberland county where he lived about two miles east of the village of Calverton or so many years. Later he resided for a time in Washington county returning to Prince Edward several years ago. He was a member of the Methodist and now resides in Athol Park. For the last few years he has been twice married.

He has been twice married. His first wife, Miss Mary Metcalfe, was the daughter of Thomas D. who was a member of the Methodist church. They were married in 1894. They have two daughters, one dying at 5 years of age. The other is Mrs. James Walker of Detroit. Two sons were born of the second marriage, Canon of Cherry Valley and Charlton of Picton.

Mr. Metcalfe and his brothers, two of whom, William of Deseronto, Fred and George of Prince Arthur, also one sister, Mrs. Mary Reid of Alberta.

The deceased was a man of fine character and was most highly respected by all who knew him. He was a member of the Methodist church and a cooperative in politics.

MISS REBECCA CHILDS

Miss Rebecca K. Childs was one of the best known of the former principals of the H.B. School, was in charge of the school on Thursday at 24, John's hospital in that city. Miss Childs was eighty-eight years old and had been teaching for nearly 40 years. She died on Thursday at 24, John's hospital in that city. She was a member of the Methodist church and a cooperative in politics.

How To Get Prompt Relief with "ABSORBINE" J.R.

Hands with hot water once a day—Apply "ABSORBINE" J.R. three times a day for the first two weeks—then every morning—and at night, put on a cloth saturated with a solution prepared of one ounce of "ABSORBINE" J.R. to a quart of water and leave on overnight.

After the first few applications of "ABSORBINE" J.R. you will notice improvement—the itching and pain will cease—the veins will grow smaller—and the skin will be free of Varicose Veins.

## EUROPE'S TRIANGLE OF SUFFERING

At the earnest request of the Canadian Red Cross, Mr. Herbert Hoover, Director-General of Relief for Europe on behalf of the Allied Nations, came to Canada to launch the drive for half of the British Empire War Relief Fund. That fund is being raised throughout the British Empire to combat famine and distress in Europe.

The Canadian Red Cross through all its provincial divisions, will make the appeal in Canadian cities.

Mr. Hoover, who is recognized as the most authoritative figure upon European conditions, spoke with the simplicity and ease which is characteristic of his work.

He said he felt some embarrassment but he was in Canada to help the Canadian people, individually by his efforts, but he felt in every city that of his own people, but he said he knew that the charity of the Canadian heart was inexhaustible and he felt they would go on to the rescue of the people that confronts the western hemisphere.

Mr. Hoover said, "The greatest of human heart is the world today is this problem of a million of war and orphan children in Europe. The children of fifteen million men could not but have left millions of helpless children in the track, and upon their welfare."

**THE GREATEST PROBLEM**

The smallest thread of the lecture was a last time a form of man. The captain's natural instinct had been to call him because of his past shortcomings. He imagined this was a mistake. He imagined this was a mistake. He imagined this was a mistake.

In despair, he turned and fled from the advancing soldier. Across the compound he ran, his revolver still clutched tightly in his hand. He did not pause to pause or to turn the corner of his consciousness. He merely raised his weapon and shot the man.
